Hi Lorena,

Yes – that is correct and 6th Street will be blocked off (or limited) to traffic once the "Town Square" is designed and created (design is happening now and it should be in construction within a year or so?). I have seen some preliminary plans for the Town Square and they have probably changed 10 times since I last saw them and there was a cul-de-sac only at 6th street in front of the Maritime Museum with limited parking. The Town Square is the area in Front of the Maritime Museum and to the South. I'm told that the developers of the San Pedro Public Market are working on the design of the Town Square and that they will be having a public meeting within the next 60 days or so to show what that may look like – you may want to wait? Or you can ask Alan Johnson to share that design with you (he should have it?) and perhaps include him in the meetings so that whatever the PBID designs it will complement what is created on the waterside? I suggest including Alan (included in this e-mail) in this discussion??

Thanks,

Augie

Augie,

Today, if you leave Ports O'Call and are driving on Sampson Way you will face 6th St. and Harbor Blvd. (where we want to put the gateway sign.) However, after the realignment you wouldn't see the gateway sign. You would only drive by it. Am I correct?

Augie,

I'm working on the gateway signage project. It's very difficult to see the details of how it will look after it's complete.

Can you get a hold of a close up of 6th and Harbor?

Thanks for your help.

Best regards,

Lorena Parker
